THE RESULT IN BROOKLYN. LICAN ORGANIZATION.

Berised Figures Differ Only Slightly from Those Published in The Sun Yesterday Morning - Democrats Cast Down by Gray's Defeat - McGarryites Jubilant.

The revised election figures in Brooklyn vary only slightly from those published in the first dition of THE SUN yesterday morning. The figures gave John F. Clarke, Dem., a plurality of 14,700 over Hiram R. Steele R., and their securacy may be judged from the fact that the Eagle yesterday afternoon gave them 14,4949, a difference of only 20. The revised pluralities for the other successful candidates on the county ticket are as follows: For Sheriff-Walton, Dem., over Nen, R.,

County Clerk-Huberty. Dem., over For County Treasurer-Kimball, Dem., over

Carr. R., 9,193. For Register-Howe, R , over Gray, Dem , 277. The pluralities for Municipal Justices were: First district - Walsh, Dem., over Cornell, R., 7,624, Sceond district - Van Wart, R., over Naumer, Dem., Third district-Lynch, Dem., over Althing, R. Fourth district-Williams, B., over Goetting, Dem.,

fifth district-Furgueson, Dem., over Nostrand, 2,665. The Assembly pluralities were:

It is a significant fact that of the five candidates on the Republican county ticket, the only successful one. Mr. Howe, was also the only one who remained loyal to the organization in 1847 and supported Gen. Tracy for Mayor. Steele, Neu, Mayette and Cary were allied in that year with the Citizens. Union. It is clear that the Iusion' business was carried too far in Brooklyn who was not an object of the river. Yealerday there was not an object of the river. Yealerday there was not an object of the river. Yealerday there was not an object on the river. Yealerday there was not an object of the river. Yealerday there was not an object on the river. According to the world have made a still better showing if they had put only tree-blue Republicans on the ticket. A careful analysis of the vote also shows that in a few spots the Republican ticket was knifed by a small solver of disgruntied factionists. No attempt whatever will be thade to disturb the present Republican managers, and, unless something unforeseen occurs, they will remain in control during the momentous campaign next year.

The election apparently has intensified the bitter factional apirit in the Democratic organization. The McGarry brothers won \$20,000 from Contractor Robert Furey over the defeat of Gray, but ex-Alderman Arthur J. Keany, who holds the stakes, will not turn over the money until affer the official canvass. The family feed between the McGarrya and their uncle, Morrissey Gray, which has had such a far-reaching political effect, only broke out a few vents ago, and, whateverthe causes which produced it, has steadily increased in bitterness Mrs. McGarry was just as earnest in her hostility to her brother in the late campaign as her sons, and, it is said

CENSUS TAKING IN CUBA

Lieut.-Cel. Sanger to Make a Personal Inspection of the Work.

WASHINGTON, Nov. 8 - Lieut.-Col. Joseph P. Sanger, Inspector General U. S. A., formerly Brigadier-General, U. S. Volunteers, will sail from New York for Havana on Saturday to make a personal inspection of the work of taking the census of Cuba, of which he is in charge. will go also to Porto Rico to inquire into the census enumeration in that island, his authority including Porto Rico as well as Cuba. The taking of the Cuban census began on Oct. 16, and will ent on Nov. 30. In Porto Rico the enumeration will be started on Nov. 10, and be concluded on Dec. 31.

be all the started on Nov. 10, and be continged on Dec. 31.

Reports received by Gen. Sanger show that the enumeration is proceeding with remarkable and unexpected success. The native census takers have shown a marked aptitude for the work, and the enumeration of the tily of Havans was conducted in a manner that has excited the simiration of Mr. Olmsted, the Assistant Director of the Census, who is in Cuba. Mr. Olmsted has reported that in all his long experience in census work he never saw better results obtained than in the Cuban capital, where the enumerators are natives. The census is preliminary to the submission to the Cuban people of the question of the future of the island.

THE TRIAL OF THE HOLLAND, Rear Admiral Rodgers Much Pleased with

WASHINGTON, Nov. 8.-Rear Admiral Frederick Rodgers, President of the Naval Inspection Board, returned to Washington to-day from Greenport. Long Island, where, with the other members of the board, he witnessed the trial of the submarine torpedo boat Holland, The Admiral said to-day that he was very much pleased with the improvements made in muen pleased with the improvements made in the Holland since her trial last year. It was at the suggestion of the Board of Inspection that these changes were made. The Holland, he said ran submerged over a mile course without once coming to the surface. Admiral Rodgers will make a long report to the Secretary of the Navy on the trial. The board's recommendations will not be made public until the report has been submitted. On these recommendations will probably depend whether the Government shall contract for more vessels like the Holland.

HAVANA'S NEW CIVIL GOVERNOR, Gen. Nunez Accepts the Office as His Duty as a Layal Cuban. Instial Cable Despatch to Tan Stre.

HAVANA, Nov. 8 .- Gen. Emilio Nufiez, who was appointed Civil Governor of Havana in place of Gen. Rivera, who was removed by the Amertean authorities, arrived here from the United ernor-General Brooks. Afterward he said to THE BUN correspondent that he had not heaftated when the new post was offered to him. He had accepted the civil governorship because he thought it was the duty of all good Cubans to help the intervening Government to carry out its mission, and he would do the best he could to aid in doing this.

Senor Vivanco, Rivera's former secretary and the acting civil Governor, has resigned. The Nuevo Puis to-day says that the treaty of Paris does not imply that there is to be a have just endorsed.

Cuban republic, but by omitting all mention of Cuban independence it tacitly declares that Cuban freedom is not intended. The paper eays that according to the treaty Spain merely relinquishes all sovereignty over the island. If the Government of the United States intended to establish a republic it would have called upon Spain to recognize it, in accordance with the general custom in such cases among the nations of the world. The paper cites the case of the war be-tween Greece and Turkey when, after the conflict, France and Russia compelled Turkey to recognize the independence of Greece. It also refers to the time when the Belgians were defeated by William of Orange and the Powers intervened and compelled Holland not only to abandon all claims to sovereignity but to recognize the absolute independence of Belgium. The paper quotes other cases and says if the United States Government had intended that Cuba should be free it could easily, as a conquering nation, have insisted upon the recog-

ition of Cuban Independence by Spain. La Tribuna calls the annexationists slaves and new political Esaus who are selling their country. Anything, it says, can be believed about such people who are capable of selling the honor of wife, father or brother. The Central Veterans' Association of Santa Clara wrote to the Havana Veterans asking the

latter to join the new democratic party which has been formed by the Santa Clara agitators. The Havana Veterans replied that they were sorry, but they could not join any political movement.

INDICIMENT OF PRENCH PLOTTERS Convincing Evidence of the Conspiracy-Gen. Chaneine Was to Have a Dukedom. Special Cable Despatch to THE BUR.

Panis, Nov. 8.-The Public Prosecutor's indictment against M. Paul Déroulède and the other Royalist plotters, who were arrested last August on the charge of treason, which charge was later reduced to conspiracy against the State, covers forty pages. The indictment carries a crushing weight of evidence against some, supported by documentary evidence. The Prosecutor sums up in this fashion: "All the facts I have just detailed reveal un-

doubtedly the existence of a concerted, well-prepared plot for the purpose of changing the Government and destroying the Republic, which plot has been accompanied by many overt acts in the furtherance of its execution. The evidence itself fills seven volumes of 250 pages each. The first volume embraces all of the police reports. In the second the daily movements of the Duke of Orieans's partisans and the result of searches in the dwellings of the conspirators are chronicled. In the house

of M. Buffet were found a list of future Royalist

prefects, a ilistof future Royalist Procurators-

Beneral, and a letter from Count de Bourmont

to M. Buffet, wherein the Count writes that

Gen. Chanoine could essily be induced to make a coup d'état in favor of the Duke of Orleans if a dukedom was promised for his services. The third volume of the evidence contains reports of Dérouiède's nileged intrigues with the Anti-Semitic League, while receiving sub-

sidies from the Duchesse de Uzes. Many statements are appearing in the news-papers denying the Prosecutor's allegations. The Count de Castellane denies having given Déroulède 50,000 france to assist the Royalists Much interest is felt as to whether the Senate will declare itself competent to act as a High Court of Justice. If it should declare itself incompetent it is believed that the fate of the Waldeck-Rousseau Cabinet is sealed.

DEPEW ON THE ELECTIONS. SAYS THE RESULT MEANS BRYAN AND M'KINLEY AGAIN IN 1900.

The Senator Declares the Nebraskan Must Make the Fight Then on a Platform Op-posed to the Tendencies of the Age, and

Consequently Without Hope of Success. The Hon. Chauncey Mitchell Depew, junior Republican United States Senator for the Empire State, had a few words to say yesterday about Tuesday's elections in the nation and their meaning. Mr. Depew said:

"In the first place, it means the renomination of McKinley next year by acciamation. In the second place, it means the renomina-tion of William J. Bryan by acciamation. Neither man will have any serious opposition. if any. It means new issues that is, for a national campaign, but issues that the people

"The election in Ohio on Tuesday was a test of the popular estimation of im-perialism. The result shows that expansion has caught the popular fancy and that the people are not afraid of truets. It means that the people are determined that the party and Administration which conceived and which can carry to a successful issue this policy of a colonial empire shall stay in power. It means that the people demand and will support the Administration in its policy of absorption of the Philippines, Cubs, Porto Rice, Hawaii, Guam and the other islands. It is proved that the cry of trusts is no longer a bugaboo, and that the people do not fear them. Taken as a whole, it means the unqualified, hearty and sweeping endorsement of the Administration-and for this reason Mr. McKinley's renomination is

"As for Mr. Bryan, his renomination by acclamation is certain, because in the first place he is the idel of the Democratic The poetry and the mystleism of the fallen leader cling around him. He carried his own State. That was the test. Had he been unable to do that he might have been brushed aside with the remark that he had been defeated in his own home. As a shrewd politican he realized this, and he made that the fight of the year. He won, and the idol of the Democracy and the victor in his own State will be "So we shall have in 1900, as we had in 1896,

McKinley and Bryan arrayed against each other. Bryan was beaten in 1890 upon an issue of 18 to 1. That issue to-day is irretrievably dead. It is a ghost. Next year Bryan will run upon a general anti platform, with enough of the free silver in it to hold the old timers. Bryan cannot bring his party to the point where Cleveland brought it in 1884 and 1802. Then Cleveland brought his party boldly to the front and gave it issues of its own. To-day Bryan must make his campaign upon a platform that declares against things that the people have just endorsed. In other words Bryan will throw the Democratic party next year back into the place it pied from 1880 to 1884, and with muffied drums and furled colors the party will march behind the procession of expansion and growth that the people have shown themselves to favor. Bryan and his party are fighting the tendencies of the nineteenth century and the certainties of the twentieth."

OLD DAN, THE NEWSMAN, RUN OFER Just an Accident at the Busy Corner Where

He and His Wife Earn a Living. "Old Dan" Corcoran, the white-headed newsmen who sells papers at the corner of the Regdown and run over last night by one of the Third avenue railroad's repair wagons. His wife, who sells papers at the bridge entrance, witnessed the accident. It was about 10 o'clock. She ran into the roadway with the crowd who went to old Dan's assistance. The wagon had stopped and half a dozen

men were dragging Dan from beneath it. newswoman elbowed her way to Dan's side, pushing a policeman into the gutter. "My God!" she shouted. "It's my man, Dan Coreoran. Oh, Danny! Danny! His skull's fractured and he's bleeding to death!" The injured man was carried into Perry's drug store and an ambulance surgeon was

The body was sent to the Morgue. Another body was found soon afterward at the foot of Carlisle street, a short distance away from where the first was picked up. The body was that of a man about 50 years old, 5 feet 7 inches tail having gray hair and a gray moustache. The body had the appearance of having been scalded. It looked like that of a steamship fireman and late last night was identified as the body of Edmund. Vroome of 231 Communipaw avenue, Jersey City, the fireman who was drowned in the wreck of the ferryboat Chicago.

The river police were inclined to believe that both bodies had come from the wrecked ferryboat. Two supposed passengers on her are still missing.

Miss Beecher Begged Mr. Guilbert not to Go on His Fatal Hunting Trip.

Some details of the death in the Adirondacks of Edwin Buckley Guilbert, a merchant of Leadville, Col., were received yesterday at the home of Miss Voice Adams Beecher, 182 Macon street, Brooklyn. Miss Beecher, who a distant relative of Henry Ward Beecher, was to have married Mr. Guilbert on Monday. He was in the Adirondacks, at Paul Smith's place, on a hunting trip. Before he left for the trip Miss Beecher begged him not to go, telling him that she had a premonition that something was going to happen. Gulibert laughed at her

On Friday Guilbert and his friends went hunting. Toward noon the others heard a shot from the direction Guilbert had taken. They concluded that he had had some luck and made their way toward him. They found him lying uncoasolous against a fence with a wound in his abdomen. He was carried to a nearby hunting lodge and a physician was summened. He died without recovering consciousness. His friends believe that the gun was accidentally discharged while he was climbing a fence.

All the Rest from Grease, Fats or

THE NEW SOAP.

Oils, Combined with an Alkali.

A Perfect Skin Healer and a Delightful Refreshing Tollet Article.

NO OTHER LIKE IT.

The first skin and tollet soap ever manufactured by the new process is proving a revelation to soap users. This is not surprising when you remember that heretofore it has been thought impossible to make soap of any kind without fats, grease, oil and alkali. These ingredients have been the base of all scape from time immemorial, and have been collected by street scavengers, or purchased from incinerating plants which burn the refuse f our cities; not an agreeable thing to think of, but nevertheless true. To be sure many of these are nicely perfumed and no doubt made as pure as possible; but if the alkali is strong enough to kill the grease and oil, it destroys and hardens the skin; if the reverse, the pores of the skin become clogged and disease follows, all the medication in the world cannot prevent it-what a delightful change then to have a soap free from these ingredients and made from the fragrant, green leaves of the Tasmanian Blue Gum Tree, these leaves being asknowledged by the medical profession as the germ destroyer and skin purifier known.

A bath with Hyomel Skin Soap is simply delightful. It leaves the skin soft, cool and refreshed, imparting to it the peach-like bloom

It is guaranteed to cure all diseases of the skin. Sold by all druggists or sent by mail. price 25 cents.

Queer Rumor That He Has Been Taken Back Into the Fifth Avenue Church. An anonymous communication signed "A Church Member" was received by the newspapers yesterday, purporting to tell of a secret action of the session of the Fifth Avenue Presbyterian Church "restoring back" to member ship in that church the converted Jew. N B Brownell clark of the session of the church, when the letter was shown to him, refused absolutely to say anything about it. He

fused absolutely to say anything about it. He would neither confirm nor deny the story nor acknowledge that he knew anything about it. It was pointed out by others that the extreme consideration for warzawiak reflected in the letter indicated its source as at least among his sympathizers.

It may be said with reasonable confidence that the session has not done as the letter says, although the secrecy of the session regarding the Warzawiak matter is undeniable, as is the fact that Warzawiak's efforts for reinstatement are unceasing. The status of the case in the tribunals of the Presenteran Church, where it has been carried all the way from the session of the Pifth Avenue Church to the General Assembly and been sent back—somewhere—is problematical. There are efforts and counter-efforts to force its consideration in more than one body.

Strike of Men at Work on Boilers for Russian Warships.

CHICAGO, Nov. 8.-The executive officers of the six railroads running between Chicago and St. Paul met to-day and entered into a "gentlemen's agreement" to restore passenger rates on Nov. 20 to the normal basis of \$11.50 between this city and St. Paul, and meantime to adhere strictly to the present basis of \$7.50. It is understood that the agreement made is for the remainder of this year. That is a triffe longer than such agreements usually last, but all the railroads are tired of the rate war which they have been waging.
